

Mountain Top BEDRUG - made of plastic !

The bedrug looks like carpet and feels like carpet, but it is PLASTIC!
You can use your bedrug just like a plastic bed liner.

Water is not absorbed by the closed-cell foam.

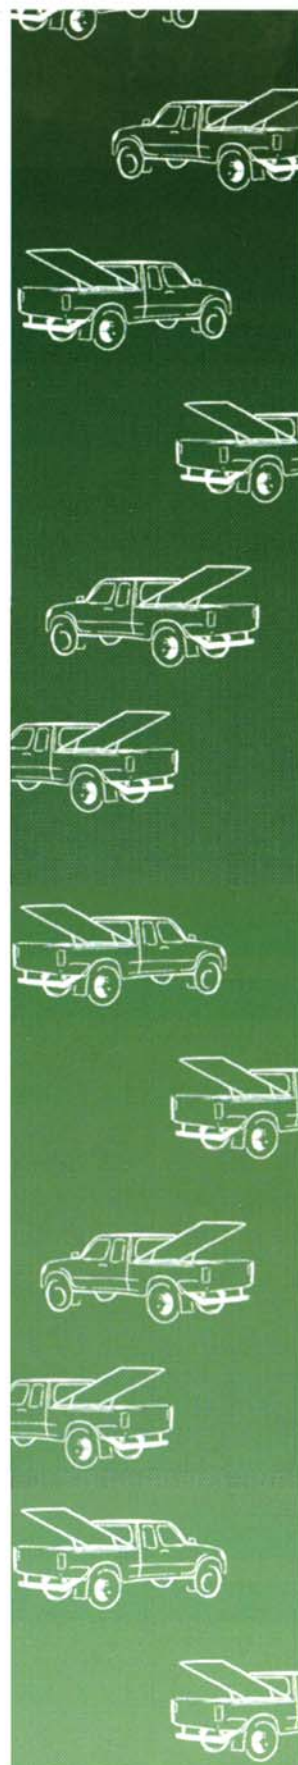

Any spill or stain remains on the stain-resistant plastic fibre surface for easy cleaning.

The bedrug is very easy to install, with an exact fit and fills in the ribs of your truck bed for a smooth "knee" friendly surface.

The bedrug fits like a glove!

The bedrug does it all and with more style than any other plastic bed liner!

- Prevents dents and dings
- Resistant to oil and chemicals
- Changes your truck bed to a trunk
- Easy to clean
- Weather proof plastic construction
- Tough protection for any truck bed
- Non-skid surface
- Soft, protects even very fragile goods
- Combines with hardtops and Tonneau Covers
